Safe work

Safe work

We endeavour to work in a safe manor and contribute to a safe work environment.

It is our goal on every job to

- Provide JSEA's (Job safety analysis)
- Carry out regular toolbox meetings
- Employ only like minded safe working staff
- Provide the required protective equipment

Suncorp Stadium - remedial repairs

Work methods

Work methods

All efforts are made to have a work method statement acceptable to the engineer and client before work commences and to have agreed outcomes.

Marine Wharf repairs

Marine concrete repairs

Quality Control

Quality Control

It has been an import aspect of our work to have quality control mainly to

- Achieve a quality outcome
- Develop satisfied customers

Our goal is to develop systems that lead to a fully accredited ISO 9001 accreditation.

High Tech grouting of bridge bearings
